AN INEXCUSABLE ACT

The President of the United States Laid Low by an Assassin's Bullet

Words cannot express the consternation of the peo-
ple of the United States when yesterday afternoon
the telegraph carried this terrible message over the
land:

Buffalo, N. Y., Sept. 6, 6:25 p. m.—President Mc-
Kinley was shot twice this afternoon at the Exposi-
tion grounds by an insane man. One bullet took
effect in his shoulder and one in his breast. The
president was carried into the service building.

It Was the Work of an Anarchist.

(Union Associated Press to the Evening Star)

Buffalo, Sept. 6, 9 p. m.—President McKinley was
shot at 4:20 this afternoon in the Temple of Music,
Pan-American Exposition, by Fred Neiman, a Pole,
from Detroit. Four shots were fired; one lodged in
left breast, one in abdomen. An attempt was made
to lynch Neiman, but he was rescued and jailed by
the police. Neiman said he was an anarchist and
did his duty.

At 7 o'clock Secretary Cortleyou stated that the
President was resting well, with conditions favora-
ble to recovery.

HOW THE CRIME WAS COMMITTED

Buffalo, Sept. 6.—At 3:45 this afternoon, while President McKinley was
holding an informal reception in the Pan-American grounds, preparatory to
leaving for his train, Fred Niemann, of Detroit, 28 years old, and well
dressed, advanced to shake the president's hand.

Niemann's right hand was covered with a handkerchief, under which
a revolver was concealed. As Mr. McKinley reached out his hand to take
that of Niemann, the latter fired two shots in quick succession.

One shot took effect in the president's chest, the other in his groin.
The president fell to the ground. Detective Foster, one of the special police
escort, felled the attempted assassin with a blow of his fist, and several po-
licemen quickly grasped him and had him out of the way before the crowd
realized what had happened.

A LINEAL DESCENDANT OF JUDAS ISCARIOT

By 7:30 a dense crowd had surrounded the police station, where it was
believed the attempted assassin was confined. There were open threats of
lynching.

Niemann, who is a Pole, is 5 feet 9 inches in height, weighs 160
pounds, has dark brown hair, blue eyes, a full face and regular features,
with a prominent nose. He speaks good English, and had made a stylish
toilet for his deed, wearing a tailor made suit and a high silk hat.

He said that he was a member of the anarchist society at Paterson, N.
J., which had sworn to kill all heads of governments. At a meeting a few
weeks ago, Niemann said, he had been selected by lot, with three alternates,
to assassinate the president. He gave the names of the three accomplices,
and where they could be found, and they were soon afterwards arrested by
detectives.

MRS. MCKINLEY BEARS UP BRAVELY

Mrs. McKinley was not notified of the shooting until 7:10, when Dr.
Rixey broke the news to her. She bore it bravely, and the doctor assured
her that there was little danger of fatal results.

Vice President Roosevelt went to Buffalo on a special train. The expo-
sition is temporarily closed.

THE PRESIDENT WILL PROBABLY RECOVER

Buffalo, Sept. 7, 1 p. m.—The president's condition is unchanged from
last night. Pulse, 136; temperature, 102; respiration, 28. He suffers no
pain except when he breathes deeply and feels as well as could be expected.
Captain Wissor reports that unless peritonitis sets in within the next sixty
hours there is no fear. Mrs. McKinley received Senator Lodge at noon. She
bears up well.

Buffalo, Sept. 7—10:20 a. m.—At nine o'clock this morning President
McKinley was resting well. His temperature was 102; pulse, 110; respira-
tion, 24. Every symptom favorable. The second bullet, which passed
through the abdominal cavity and lodged near the spine, has not yet been
extracted and the surgeons are as yet unable to locate it.

Buffalo, Sept. 7—11:40 a. m.—This city is in a state of intense excite-
ment. Martial law has been practically declared. Secretaries Root, Knox
and Wilson are here with the President. The doctors fear the worst from
shock and blood poisoning. The crisis, however, may not be reached for
two or three days. The gravest fears are entertained of the President's
fate.

How People Lose their Money

By Lending it to Neighbors and Friends; by Concealing it About
their Persons; by Stowing it Away in Mugs, Jugs and Jars; by
Sewing it up in Skirts and Ticks; by Tucking it under Couches or
Carpets, in Cupboards or Bureau Drawers. These are Some of
the Ways by which People Lose their Money and Sometimes Lose
THEIR LIVES.

A Lady's Lunch

Has been rudely defined by some cynic
as "slops and sweets." And after all
there's more truth than poetry in the
definition. Ice cream and cake may
satisfy the palate, but they are far from
satisfying to the stomach, which requires
that food be nutritious first and nice
afterward. By careless eating women
pave the way for stomach "trouble,"
and its kindred miseries.

Dr. Pierce's Golden Medical Discov-
ery is confidently commended as a
cure for diseases of the stomach and
other organs of digestion and nutrition.
By curing diseases which prevent the
assimilation of food it enables the body
to be built up and strengthened in the
only way known to nature—by food
digested and assimilated.

"For twelve long months I suffered untold
misery," writes Mrs. Mollie Colgate, of Ran-
dolph, Charlotte Co., Va. "No tongue could ex-
press the pain that I endured before I com-
menced taking Dr. Pierce's medicine. I was
not able to do anything at all. Could not eat
anything except bread and tea—or if I did the
top of my head hurt so it seemed it would kill
me; with all that I could do it would burn like
fire. But now, since using your 'Golden Med-
ical Discovery' and 'Favorite Prescription,' I
can eat a little of almost anything I want, and
can do a good day's work as well as anybody
can. Am better than I have been for years."
